

For months I had been planning my boyfriend's 30th birthday party. We had friends coming to visit from all over the country and I wanted it to be a very special occasion. I met Michelle at a networking event and shortly after that contacted her to make a cake for the party. The cake was beautiful! Everyone complemented the look and taste of the cake. Chad was not excited about turning 30 but this helped to make it a little easier to swallow. Thank you so much for everything.

Michelle,  
You and your wonderful products were a HUGE hit at our church dinner last night! I think every single person in attendance asked me about your company and truly enjoyed everything. It was a beautiful presentation and people were just crammed around the dessert tables!
